

For Immediate Release:

Zak's Table Art Creates Unlimited Options

Spokane, WA (May 30, 2011) – When it comes to laying out the perfect party spread, Zak Designs understands that presentation can be just as important as the food that's served. With its new Table Art sets of serveware, Zak is giving people everywhere the ability to create a spread that's as unique as the party they're hosting.

By creating individual serve trays that can be combined to create a unique artistic expression, Table Art promises to become the new standard in innovative serveware. Available in four different sets that all complement each other, Table Art allows hosts to create an unlimited number of personalized serveware displays.

The two flower sets include six petal shaped trays and a small floral Bloom Bowl. One set includes white petals and a yellow Bloom Bowl and the other features a green Bloom Bowl with purple and pink petals. Zak is also releasing a Table Art set that features 7 petal dishes in a rainbow of colors as well as a separate 4pc. set of Bloom Bowls in multiple bright colors. The final set in the Table Art line is Geo, which includes four green triangles and four blue half-circle trays.

All of the trays are made from melamine so they're durable enough for any outdoor occasions, and they're dishwasher safe to make clean up after the party a breeze. Although each set can be used individually to create fun and unique serveware options, the Table Art line was designed so that each of the sets can be used in conjunction to create the kind of party spreads that are truly one of a kind!
