

For Immediate Release:

Zak's Mellow Bowls Take Convenience Beyond Kitchen

Spokane, WA (August 11, 2010) – When Zak introduced its Mellow Batter Bowls, the response from cooks was overwhelming. The lightweight material, non-skid bottom and functional design quickly made them some of the most sought after batter bowls on the market. Now, Zak is releasing these same features in a bowl set not limited to the kitchen.

The new Mellow bowls from Zak were designed to be durable and functional mixing bowls that nest comfortably within each other for easy storage when they aren't being used. Like the batter bowls, the

Mellow mixing bowls are made with a lightweight material that makes them easy to handle when mixing, and the non-skid ring on the bowls helps make sure that they stay on the counter when the mixing gets tough. But their versatility doesn't end when the mixing's done.

Because they are dishwasher-, refrigerator-, freezer-, and microwave-safe, and come complete with snap-tight lids, these bowls are ideal for storing leftovers, softening butter or other ingredients, and even warming up soup at work. The bowls come in four sizes, 3qt, 2qt, 1qt, and half quart, and are available in a set of 8, with one of each size and accompanying lids, as well as 2 packs with either a 1qt and .5qt bowls or two .5qt bowls. The sets are available in two different color patterns, blue and white and orchid and kiwi.

From the kitchen to the office and beyond, Zak's Mellow bowls are designed to be the bowls that everyone can find a use for.
